

## Cell Groups at Penshurst Anglican Church

Our church calls itself a 'cell church', built upon the Biblical idea that the primary way that God's people can truly live out the Gospel is through small, intentional communities (called 'cells'). It is here where Jesus is given a far more intimate opportunity to do His work of transformation.

## Pray for Kian Holik

A group of students that we often overlook on campus, especially within the international students context, is the postgraduate research overseas students.

After serving in AFES at the University of Technology, Sydney (UTS) city campus for about 6 years with Credo, our family has been praying to start up a new ministry at **Macquarie University** in North Ryde. This campus hosts the third largest community of overseas students in Australia which comprises close to 10,000 students and 500+ overseas postgraduate (research) students. The campus location is also closer for our family to minister together.

Our ministry will include **evangelising, training and preparing** the few studying here to impact many in their home countries, for the glory of God. It will also **support strong link between local and international postgraduate Christian students, lecturers and academics** at Macquarie University and beyond. (Already there exists a group of Indonesian Christian students who, upon finishing their post-graduate studies, will be working at Indonesian government institutions and lecturing at several different universities in Indonesia.)

Through this network, Christians may be able to encourage one another to be faithful followers of Jesus, being a salt and light to the world in their respective fields, wherever they are. This network will also **challenge overseas Christian academics to be serving God strategically in their home countries.**

I hope you can pray for our decision to move to Macquarie University starting in 2015. It is not an easy one, because UTS and Credo has been the biggest part of our family life in the last six-and-a-half years or so. However, we know that this is what God wanted us to do next.
