

AGM report 2024

2023 was the first year at PAC, it was a challenging year to adjust to the new church structure, culture and know the congregation. But God's grace is sufficient for me to adapt and carry out ministry smoothly.

The primary focus was on preaching, trying to ensure the quality of sermons about three times a month, so that God's Word can build and transform believers' lives.

I encouraged congregation members to attend Sunday services regularly. I also visited and cared for some irregular members. Service attendance increased last year.

Disciple-making was also an important factor. The congregation were made aware of the importance of discipleship. The Life of Christ course continued. Through encouragement and stress the group members persevered and grew in maturity.

The Abundant Life Course was also important for laying a solid foundation in the Christian life. I promoted, led and saw the transformation of some members. I also trained future leaders of this course.

I developed small group ministry, encouraging more members to join small groups. We also moved small groups to physical meetings in 2024. Regular small group leaders meetings were held to train and care for them.

I developed evangelism, sharing gospel with a number of people in the community with a few members converts, and trained leaders.

I helped members establish godly habits, especially Bible reading and prayer. 30 brothers and sisters start using Daily Living Water Devotion material in 2024.

I have motivated the congregation to serve and tithe. I started a newcomers' follow-up and caring ministry.
