

Make a paper chain

Our story uses a chain to show the people were in exile. They couldn't go back to their home in Jerusalem.

Would you like to make a chain from paper?

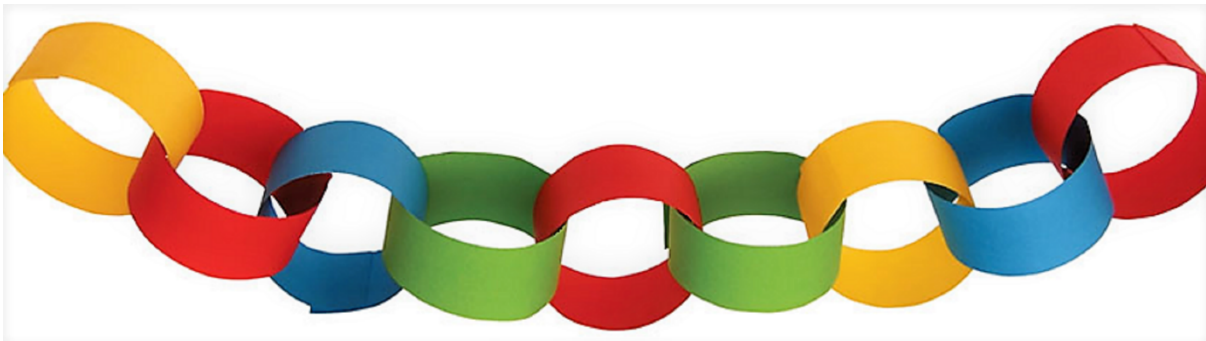

What colour do you want your chain to be?

Take a sheet of paper in that colour, or colour in some white paper and cut it into long strips.

Take one strip, and glue or tape or staple one end to the other, so you have a circle.

Take another strip, put it through the first circle, and glue or tape or staple it end to end as well.

Keep going, attaching each new circle to the ones you already have.

Or you can watch some videos here to show you how.
