

Inside the Temple

I wonder if you saw all the special objects that went inside the temple. You might like to cut these out and put them inside your temple.

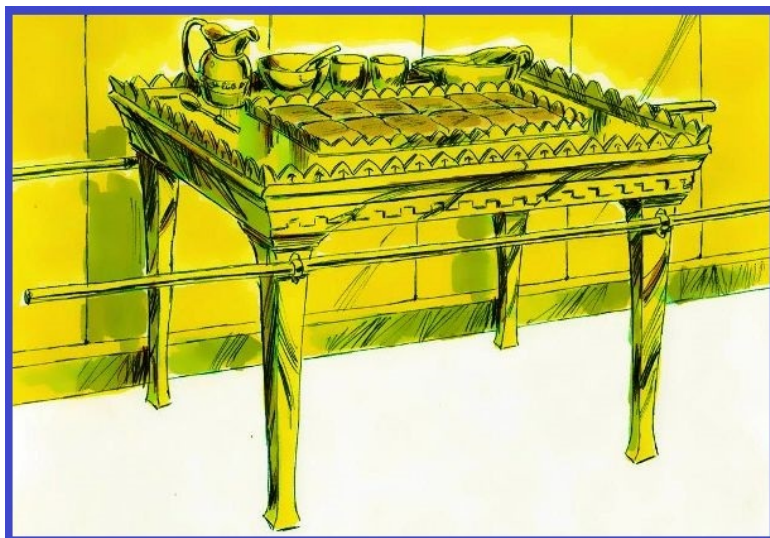

They all helped people come close to God.

I wonder how each one helped people to come close to God?

This is the Ark of the Covenant. It went inside the Holy of Holies and marked the place where God would be.

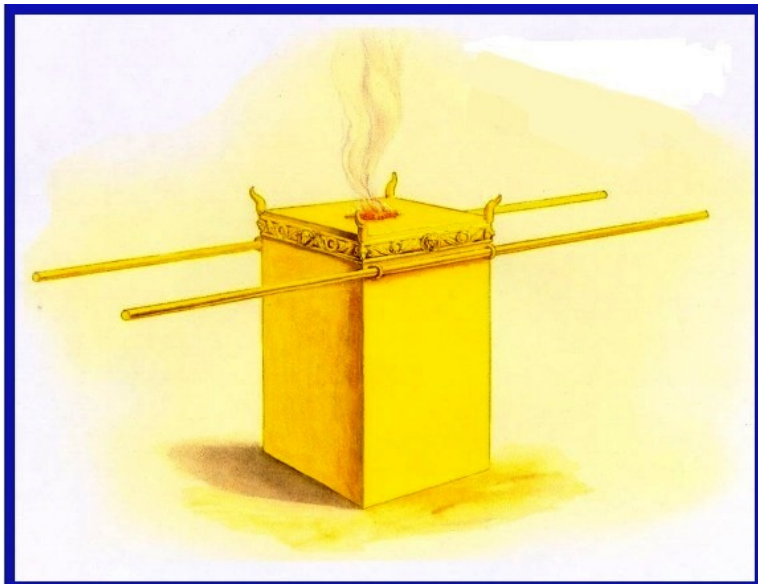

This is the table of showbread. It had plates, dishes and bowls for the priests to use, and 12 fresh loaves of bread, one for each of the 12 tribes of Israel.

These lampstands of pure golds gave light.

This censor was to burn incense and make a beautiful perfume, to please God and please the people.

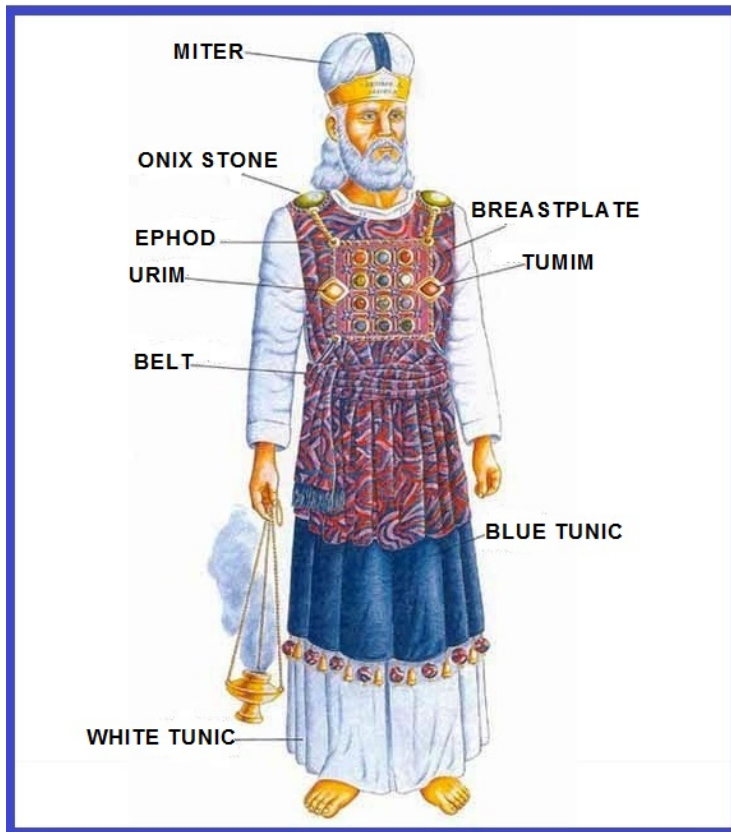

This large bronze wash basin was outside, so the priests could wash themselves before they went into the temple.

This large bronze altar was also outside the temple. The people brought animals to God, and they were burned on this altar.

The high priest had special clothes he wore into the temple.

Here is the high priest in all his special clothes, going into the Holy of Holies just once each year.

This shows you where all the special objects go in the temple.
